

Atlas Copco Canada proudly presents... CALIVAN

Mobile tool service at your facility

The CALIVAN is the solution for manufacturing facilities where uptime is critical. This mobile service brings Atlas Copco capabilities to your facility, including power tool maintenance, torque and angle calibration, as well as wrench validation services. Our goal is to maximize your uptime and keep your tools operating at their optimum condition.

17025 Certified for Accredited Calibration CALIVAN Services include:

- ▶ Torque Calibration & Validation:
 - Intelligent wrenches (STwrench, Mechatronic)
 - Manual torque wrenches (click, dial, cam-over)
 - Power tools up to 500 Nm
- ▶ Angle Calibration for Electric Tools
 - Verify the angle encoder measurements
- ▶ Preventative Maintenance & Repairs
 - Electric & Air Tools – All Brands

CALIVAN saves you time, cost and stress by bringing our service capabilities to your facility.
